SWITCHED 56 kbit/s SERVICE UPDATE 8/10/98

Original Disclosure Date: February 20, 1990
Update to Network Disclosure News #326

This document provides an update to the locations where U S WEST Communications plans to 56 kbit/s. The following summary and interface specifications were announced in Network Disclosure #326 and are reiterated below as this document completely replaces #326. An asterisk in the left margin denotes a change or addition from the previous release.

Summary: U S WEST provides switched 56 kbit/s service (SwitchNet 56®): a high speed, end-to-end 56 kbit/s switched digital connection.

Location and Timing of Deployment: This disclosure provides an update to U S WEST's planned deployment of SwitchNet 56®. See Attachment for an updated listing of location and deployment schedule. An asterisk in the margin denotes a change or addition to the previous release. The interface specifications have not changed. This list is subject to change.

Pricing: Available under tariff or catalog price list.

Interface Requirements: Technical information addressing the Switched 56 kbit/s Service is described in U S WEST's Technical Publication #77329 titled, "Switch Net 56® Switched 56 kbit/s Digital Service," Issue B, and may be obtained by contacting:
