

*Network Disclosure Announcement No.
803*

Short Term Public Notice Under Rule 51.333(a)
CenturyLink's Internet address: <http://www.centurylink.com/disclosures/>

**E9-1-1 Served by CenturyLink's PlantCML Sentinel ECS-1000
Routers/ANI-ALI Controllers in the State of Texas.**

First Implementation Date: *June 23, 2017*

Original Date Posted:

February 24, 2018

Summary:

CenturyLink announces the planned decommissioning of Athens ECS1000 9-1-1 Selective Router. All 9-1-1 trunks will be transferred to an existing DMS-100 switch that shall provide the Selective Router functions. The Telcordia® LERG™ has been updated accordingly. In addition, the 9-1-1 voice trunk network currently provided by CenturyLink's ECS-1000 serving three Texas PSAPs will be rehomed to the Killeen DMS100 CenturyLink Selective Router. Carriers will need to provision new end office 9-1-1 trunks (ES trunks) for the impacted counties/PSAPs to the DMS100 CenturyLink Selective Router, replacing existing trunks to CenturyLink's ECS-1000 Selective Router. After the migration, the Athens ECS1000 Selective Router will be decommissioned and the 9-1-1 Selective Routing services in Texas will be handled by the pertinent DMS-100 CenturyLink Selective Router. The impacted Counties and PSAPs include:

- Henderson County
- Athens P. D.
- Gun Barrel P. D.
- Anderson County (Routing only, no PSAP trunks – moving to A T & T for routing in spring of 2018)
- Kaufmann County (Routing only, no PSAP trunks)

9-1-1 Selective Router Name	Athens
9-1-1 Selective Router CLLI	ATHNTXXA91W
9-1-1 Selective Router Type	ECS1000
Current Point Code	239 016 005
